A community-wide program of educational, social, recreational and volunteer activities
Temple De Hirsch Sinai, Temple B'nai Torah, Jewish Family Service & Congregation Beth Shalom

January Programs

Israel's Ultra-Orthodox and Us: A First Hand Account of What American Jews Need to Know

What are the goals and how did ultra-orthodoxy arise as a power in Israel? Why might it be a threat to Israel? Who leads the various groups and how will the current climate in Israel affect communities in the US? In an illustrated talk, the author of *The Mossad Messiah*, Reform Rabbi Leigh Lerner will begin to answer these questions and more.

Tuesday, January 9, 2018 • 10:30 a.m. – noon

Temple De Hirsch Sinai, Seattle Campus: 1441 16th Ave • Seattle, WA 98122

For directions, please call (206) 323-8486 or visit www.templedehirschsinaio.org

And Yet They Learned: Education of Jewish Children in Nazi Occupied Areas

From 1933-1945 Jewish children in German ghettos, concentration camps, orphanages, convents and monasteries, and even in forests were secretly educated. Author Jacqueline Silver will share her ground-breaking book which details these efforts to provide Jewish education to beleaguered children under Nazi occupation in Europe and North Africa. This is educational history like you've never seen before. Perhaps even most importantly, we will examine how these answers can be applied to contemporary educational settings

Tuesday, January 16, 2018 • 10:30 a.m. – noon

Congregation Beth Shalom: 6800 35th Ave NE, Seattle, WA 98115

For directions, please call (206) 524-0075 or visit www.bethshalomseattle.org

Rick Horwitz, PhD, Executive Director of the Allen Institute for Cell Science on the Latest Advances

As humans, our lives begin as a single cell, growing to 50 trillion cells in adulthood. Each of these cells is a microcosm of complex, living machinery. Recent advances have yielded remarkable insights into how many of the individual pieces of cellular machinery function. But understanding how they work together to produce a living cell requires an entirely different approach. Rick Horwitz, a world renown expert in cell biology and biophysics, will share the approach Paul Allen's Institute in South Lake Union is taking in this cutting edge area of research.

Thursday, January 25, 2018 • 10:30 a.m. - noon

Temple De Hirsch Sinai, Bellevue Campus: 3850 156th Avenue SE • Bellevue, WA 98006

For directions, please call (206) 323-8486 or visit www.templedehirschsinaio.org

Our tzedakah recipient is Lion Eyeglass Recycling Center, please bring reading, prescription, and/or sunglasses to donate.
For each program, please **RSVP** to Rabbi Kate Speizer, rsvpEO@tdhs-nw.org or (206) 693-3046.
